Charles J. Ascher-Walsh, M.D. is the Director of the Gynecology and Urogynecology Division at the Department of Obstetrics, Gynecology and Reproductive Science. He has extensive experience in Urogynecology/Female Pelvic Medicine and Reconstructive Medicine and has specific training and proficiency in all areas of pelvic surgery including vaginal, laparoscopic and graft-augmented surgical techniques. Dr. Ascher-Walsh has been named a Castle-Connolly/New York Magazine Top Doctor and a New York Times Magazine Super Doctor annually for the past several years. His international research experience includes the completion of a randomized control trial and several projects examining minimally invasive techniques.

David J. Goldberg, M.D., J.D. is recognized nationally and internationally for his innovative work with skin lasers, cosmetic dermatology and non-invasive facial and body rejuvenation techniques. A board-certified dermatologist who has been in practice since 1985, he has treated patients and taught doctors throughout the world in the use of these cutting-edge technologies. Under his direction, Skin Laser & Surgery Specialists of New York and New Jersey has been a pioneer in making skin laser and cosmetic dermatology technologies available to the public.
